

ART

in English for Kids

Summer half-day programs in Töölö, Helsinki for children (7-11 year-old)

For:

7-11 years old children, who are English speaking or want to practice English while enjoying art-making

When:

Week 23 (June 6th - 10th), 2011, 9:00am - 12:15pm

What we'll do:

Workshop with Eungyung Kim, MFA, MPS (US & KR): *Who Am I? Who Are We? : Self-discovery through Colors and Forms*

We will be using various materials- painting, drawing, and three-dimensional materials throughout the program to emphasize on free self-expression through art- art as communication, expression and connection. In this workshop, the process of art-making is as important as the finished product. Children will also spend time writing about their own process of art-making as reflection, then have time to share their art works, thoughts and feelings with the group.

Workshop with Laura Wesamaa (FI): *My House*

We will think about the concept of home together. From drawing and painting to three-dimensional building, children will create houses of their own, combining their reality and imagination.

Workshop with Michiko Erkola (JP): *Sound, Rhythm, Colors and Shapes*

We will explore music from various genres and eras and create spontaneous and improvisational visual images relating to them. Some movements will be used as well for the children to experience the relationships between visual, auditory and kinesthetic art.

Exhibition:

The last day of the workshops, we will have an exhibition where the children can see their creations during the week. Parents and visitors are welcome to celebrate and marvel with us!

Program schedule:

9:00-10:30	Workshop I
10:30-10:45	Break and snack
10:45-12:15	Workshop II
